Portfolio: wael.sh.codenza.dev

PROFESSIONAL SUMMARY

Front-End Developer specialized in React, Next.js, and TypeScript with experience building modern responsive websites, booking systems, admin dashboards, and media platforms. Skilled in website design, clean UI/UX, scalable front-end structures, and transforming project ideas into professional, user-friendly digital products.

CORE SKILLS

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, REST APIs, Git & GitHub, Responsive Design, UI/UX, Website Design, Front-End Architecture, PHP

EXPERIENCE

Front-End Developer

November 2025 - Present

Codenza

- Work on modern front-end interfaces and website design using Next.js, TypeScript, and responsive development practices.
- Build user-friendly pages, reusable components, UI sections, and interactive features for real client projects.
- Collaborate with the team on project requirements, implementation details, testing, and delivery improvements.

Front-End Developer Intern

6 Months

Tamkeen Company

- Developed responsive and modern UI components using React and Bootstrap
- Improved UI/UX across multiple real-world projects
- Collaborated with team using Git and structured workflows
- Handled debugging, testing, and performance improvements
- Participated in deployment and basic automation tasks

PROJECTS

Motion Zone (Next.js & TMDB API)

- Developed a movie and TV series platform that displays films, series, details, posters, ratings, and media information through API-based content.
- Integrated the TMDB API to fetch and display dynamic movie and series data in a structured user-friendly interface.
- Designed a modern entertainment-style UI focused on clean layout, visual hierarchy, responsive cards, and smooth browsing experience.

- Built reusable front-end sections for trending content, media details, categories, and search-style browsing.

Driving Training Platform (Next.js & React)

- Developed full platform with booking system for driving lessons
- Implemented user accounts, login, and session logic
- Built scheduling system for lesson reservations
- Designed responsive UI across all pages
- Integrated APIs with backend collaboration

Hotels Management Platform

- Developed a multi-hotel platform with offers and booking features
- Implemented role-based system (Super Admin & Admin dashboards)
- Built account management system and control panels
- Designed responsive UI for managing hotels, users, and offers
- Handled frontend logic for managing data and interactions

Video Platform Web App (Next.js)

- Built dynamic video UI platform
- Optimized performance using Next.js
- Responsive design

Data Entry System

- Built system using JS and PHP
- Added validation and usability improvements
